

## **Fifteen surfboards by fifteen shapers / by Tony Arruza ; foreword by Ben Marcus**

### **Description**

An exhibition unlike any other, “15 Surfboards by 15 Shapers” is the brainchild of Tony Arruza who has traveled the world in search of professional surfboard hand-craftsmen to create one-of-a-kind works of art. Having no two boards the same, Arruza has inlaid photographs, taken and printed himself, that aesthetically lend themselves to the boards’ shape. This five-year in the making, world-wide collaboration has each finished board as a distinct, fine art creation.
