Description

More than any other surfer, Mark Richards has changed the face of surfing. As four times consecutive world champion from 1979 to 1982, his achievements are unequalled. Mark Richards: A Surfing Legend paints a vivid portrait of a brilliant surfer and a fierce competitor. Initially teased because of his awkward technique, Richards created a new style of fast maneuvers and radical turns that revolutionized surfing. Richards became a role model for a generation of keen surfers and a dedicated spokesman for the sport.
