

Photo : Grannis : surfing's golden age

1960-1969 / photos by LeRoy Grannis ; edited by Brad Barrett

Description

While LeRoy Grannis' surf photography has spanned the last four decades, this book is dedicated to his seminal 1960s images. During the '60s, Granny was one of just a handful of surf stoked individuals shooting surfing and he is regarded by most, including his photographic peers, as dean of the genre of that period. As the sport grew on through later decades, many of its new and increasingly exciting surfers and surf photographers received their initial inspiration from images presented in this book.
