

Wolfgang Bloch : the colors of coincidence / text by Mike Stice ; afterword and design by David Carson

Description

The art of Wolfgang Bloch reveals much about the man who creates it--the subdued palette, the modest and unexpected materials; all utilized to reduce traditional seascapes to their essence and in the process imbue them with compelling intensity. Wolfgang Bloch: The Colors of Coincidence is a creative collaboration between three people who share a deep-seated passion for art and the ocean: Bloch himself, design legend David Carson, and author Mike Stice. They have created an art book as inimitable as the art it captures, an intimate, soulful account of an artist's rich and layered life, alongside the most evocative examples of Bloch's work.
