

## Grey Ghost, Foam Hot Curl

### Date

c. 1960

### Primary Maker

Joe Quigg

### Medium

Foam

### Description

Bob Cooper had Joe Quigg shape this at his shop in Newport Beach, and then Bob gave it a glass job at Renny Yater's shop in Santa Barbara since he was working for Renny at the time. The triple glass was done to add weight, making it feel heavier like wood. This Grey Ghost Hot Curl board is made of foam. It is a silver color and was originally black. There is no fin on this board. Phil Edwards rode this board for a year or so in an attempt to get riding a Hot Curl wired. He said it was difficult.
