

## **200 years of surfing literature : an annotated bibliography : based on Daved Marsh's "The water log" / orchestrated by Timothy T. DeLa Vega ; introduction by Steve Pezman, Joel T. Smith**

### **Medium**

Book

### **Description**

Part of intro: At the time of the release of this landmark surfing bibliography, a large enough amount of surf literature has been amassed that it covers that illusive, ephemeral act of riding a wave with published layers of skin so thick, that it now can be placed on a shelf. Have we become members of that mainstream which we once shunned? If so, our saving grace is that the simple, elemental joy of the ride lives on.
