

Surfing 50 States (DVD)

Description

The indie travel documentary about two Aussie mates, Jonno and Stefan, and their quest to go Surfing 50 States. "As long as you are standing on a surfboard with some kind of momentum, you are surfing," they decided. Doing this in ALL 50 states, especially the 32 without the ocean, was going to be a challenge. But they saved their pennies, packed their bags and headed to the USA with a camera in one hand and a surfboard in the other.
