

Basic Detail Report

Atlantic Moon (VHS)

Description

The story of the Oxbow World Longboard Championships from the Canary Islands, Spain. The Oxbow World Longboard Championships, the hotly contested annual traveling event, landed on the lunar landscape of Fuerteventura in the Canary Islands for its 1998 edition. Famed as the swell magnet of the Northern Atlantic, the lava reefs off the coast of Morocco challenged the world's smoothest surfers with howling winds, unruly waves, and a decidedly foreign culture.
