

Wave Warriors IV: On the Loose (VHS)

Description

Today's young breed of modern day warriors are blasting their way into the future and their's is the spirit of Wave Warriors IV--the pulse of modern moves set to the beat of modern music. The kids can see it, feel it and hear it. They don't want what was. They want it the way they surf: pure, raw and full of energy. I'm out in the water every day and I see what's happening. In capturing that on film, I didn't set out to make some sort of political statement or timeless portrait. Wave Warriors IV is more like an abstract painting involving the senses. Experience it, escape into it, but don't turn away if you want to be a part of what's happening right now. If you're expecting the same old thing in a bright new package, forget wave warriors IV; if you have any preconceived notions about what a surf film should be, then this movie isn't for you. It's simply an hour of pure entertainment, aimed at the kids out there who are plugged directly into the energy, and at the kid in all of us who dreams of riding with them. Dream it--then do it!!
