

## Surfing Heritage Foundation P.S.A.

### Description

Formed in 2001, the Surfing Heritage Foundation is a 501 (c)(3) nonprofit dedicated to the preservation of surf culture and the historic items that have defined it. We accomplish this through collecting and archiving historically significant surfboards, photographs, oral histories, books, and other print media. Through our educational programs, engaging exhibits, and special events, we create an enriching environment for all to enjoy.
