

## In Natural Flow (DVD)

### Description

In Natural Flow captured the turn of an era, as the giants of the '60s disappeared into the Byron Bay hinterland or in search of enlightenment through yoga, eastern religion or drugs. Into the breach stepped a new generation of hyper-competitive youngsters hell-bent on taking over the surfing world. Core was right in the thick of it and captured many of these budding young talents as they bloomed. As well as the great Michael Peterson, there's Peter Townend, a very young Rabbit Bartholomew (briefly), Simon Anderson, Col Smith and many others, putting the evolving shortboards through their increasingly radical paces.
