

## Corky Carroll & Friends, Laid Back record

### Description

An idea that became a reality. The union of several people with two things in common: a love of music and a love of the sea. This album depicts the talents and diversified musical tastes of its contributors. The music has a mellow flavor that seems to blend the harmonies inspired by the sea with the personalities of the performers. I'm sure that within the depths of this record there exists music for every taste. -Elmer Conovitch
