DEALER

---

**TO THE SURFER**

The Hansen Surfboard is a combination of materials, craftsmanship and experience that are combined to insure the best possible performance and durability under all types of wave conditions.

We pride ourselves in the ability to deliver to you such a surfboard every time, and to maintain them 100%. We can only do this by knowing, ourselves, that the materials and techniques we employ in our shop are the very best.

How do we know what is the very best? By continually testing new materials, techniques and designs, then incorporating those improvements into the construction of the HANSEN SURFBOARD.

As technological advances permit and designs change, you can be sure when you get a HANSEN you get the most advanced surfboard in the world.

*Don Hansen*

**NEW**

Hansen Surfboards are now available to you coast to coast. Through franchised dealers located in major surfing areas. Due to freight costs prices will vary somewhat from this list price on the Hawaiian Gulf coast, and Hawaii.
