

Balsa wood, "Malibu Chip" board.

Date

c. 1956

Description

Purchased from "Pal" Al Nelsen, this is a chambered balsa, hollow construction, with a redwood diamond shaped nose block added by Nelsen. Tail section was later modified with slight vee-bottom and a modern mahogany fin.

Decals on both the deck and bottom were most likely added when Joe Quigg had his shop in Newport Beach in the 1960s.
