

Donald Takayama Jacobs Stepdeck Collector Series, balsa wood, multi- stringer longboard

Description

Made from hand-picked lightweight Ecuadorian balsa, with old growth recycled 5 stringer offset redwood t-bands from Northern California. It also has a hand-laminated multi stringer t-band glassed on fin. Donald builds each boardroom start to finish and it is then glassed by Wayne Hoshigaki (45 years gassing experience). Each board takes over 60 hours to build and would retail for \$5,400 each.
